6.5" x 6.5" Chainmail Scrubber for Cast Iron Pan.

Chainmail scrubbers are designed to clean cast iron and carbon steel cookware, but they can also be used on other items.

Cast iron: Chainmail scrubbers are ideal for washing skillets after cooking, removing baked-on food without stripping away seasoning. They can also help prepare skillets to accept new seasoning

Other cookware: Chainmail scrubbers can also be used on pizza stones, sheet pans, woks, and Pyrex dishes.

Chainmail scrubbers are made of food-grade stainless steel, which is abrasive enough to remove food while being gentle on seasoning. They don't absorb water or soap, so they're not sponges and don't need to be cleaned for bacteria.

Chainmail scrubbers are sustainable and can last a lifetime.
